About the Programme

The Tensor AI Specialist Certified Programme is a six-month, hands-on, onsite career acceleration programme designed to prepare candidates for technology, business, and creative roles through structured learning, expert mentorship, practical assignments, and real industry project exposure.

Candidates will learn in a professional work environment at the Tensor Solution Bhopal office, gain practical experience with industry workflows, build a portfolio, and receive a professional certificate upon meeting programme completion and assessment requirements.

What You Get

- 6 months of structured, onsite industry training at the Bhopal office
- Hands-on work on real industry projects and practical assignments
- Mentorship and learning from industry experts
- Professional certification upon successful completion
- Role-specific tools, technologies, workflows, and best practices
- Portfolio-building experience and career guidance
- Assured job pathway with Tensor Solution at Rs. 18,000/month*
- Exposure to professional workplace culture and client-oriented delivery
